DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group I and species in the reply filed on 12/20/06, and 5/4/07 is acknowledged. The traversal is on the ground(s) that there is no burden to examine all the F and sugar moieties. This is not found persuasive because there have different structures.

The requirement is still deemed proper and is therefore made FINAL.

Claims 27, 28, 30 and 31 read on the elected species.

Claims 1-26 and 29 are withdrawn.

No prior art was found for the elected species and therefore all claims of group I were examined.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12, 25, 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 show F moiety -HS-CO-CH₃. However the valence of a S atom is 2. Therefore -HS-should comprise a charge or H should be removed.
